Operations Management / Security / Safety

- Operations Manager – Responsible for overseeing the successful operation of package delivery for six counties (Jackson / Hillsdale / Branch / Eaton / Ingham / Lenawee). Maintaining all fleet vehicles to ensure on time delivery for in-town, rural, and extended commit times areas, including all pick-up commit times, and outbound flight commit times. Lead morning and nightly sorts and plan additional routes daily allowing couriers to get on area quicker, and achieve adequate return to building times for shuttle launch to Detroit (DTW). Utilize area knowledge to work with area engineer to restructure and add routes to allow for efficient and effective daily route planning.
- Warehouse Manager – Oversee all warehousing and distribution operations including inventory, inventory control, contracts, sales, recovery of lost freight, handling of hazardous material, surface transportation including linehaul, expedites, cross-docking, 3PL, reverse logistics, FTZ's, and emergency operations. Importing and exporting of cargo including monitoring of all vessels, railways, and air and surface transportation.
- Facility Safety Coordinator - Participate in nationwide company safety conference calls. Distribute information to all team members by coordinating monthly safety meetings with all departments, on all three shifts, and distributing meeting minutes on company intranet and internal company boards. Coordinate all emergency fire drills on all three shifts including at the Ambassador Bridge. Utilize the Federal Register to subscribe to OSHA, EPA, FDA, NRC, Transportation Department, and sub-agencies to analyze and interpret significant documents, and recently published documents that could impact operations.

- Facility Security Team Leader - Maintain security of DC, including monitoring vendors in the warehouse, office, and escorting visitors while on premises. Personally oversee all warehouse security and work closely with executive management to uphold company integrity by keeping secure classified and sensitive documents and conversations. Also have training in workplace violence prevention, and emergency situations at the workplace. Part of the first response team in the event that a situation would arise.
- Dangerous Goods Certified Specialist (HazMat) - U.S. Department of Transportation - Pipeline and Hazardous Materials Safety Administration (PHMSA). Familiar with IATA, IMDG, ITAR, FMCSA, TSA, NMFC freight class codes, OSHA, ICAO, HTSUS, CBP bonded warehouse operations, CFR Title 49, Title 19, and Title 146 regulations regarding FTZ's.
- Manage a team of 45+ team members.
- Oversee all internal facility/warehouse TSA audits regarding all international shipments.
- Manage all facility/warehouse operations of 41,000 sq ft facility; my availability is 24/7, day or night, holidays or vacations.
- Manage all clientele and vendor contractual agreements annually to make sure the scope of work meets the standards of the customer, including all procurement activities, negotiations, and any additional special contract terms.
- Create SOP's (*Standard Operating Procedures*) for all customer accounts.
- Travel to new, or expanding OpCo's to help consult and assist with training and development, everyday operations, and SOP creation.
- Responsible for all team member training, evaluations, scheduling recurrence training on all certifications, and ensure professional development for advancement opportunities.
- Utilize cross functional teams, IT, regulatory, brokerage, HR, and various professional executives to develop and grow business relations for warehouse and distribution, transportation/logistics, supply chain, and cross border operations, ensure all paperwork and shipments that cross into Port of Detroit are compliant with Customs and Border Protection regulations.
- IT cross functional development includes, working with both IT and software engineers on software updates, coding updates, complete program and asset upgrading and installation, analytical development improvements for precise reporting.
- Lean Six Sigma/(QDM) Quality Driven Management experience.
